Contents Vol. 131

C–O–Sr isotopic stratigraphy of cap carbonates overlying Marinoan-age glacial diamictites in the Paraguay Belt, Brazil
C.J.S. de Alvarenga, R.V. Santos and E.L. Dantas 1
Thermochronology of the Grenville Orogeny in west Texas
S.W. Grimes and P. Copeland 23
Sr, C and O isotope geochemistry and stratigraphy of Precambrian and lower Paleozoic carbonate sequences from the Western Sierras Pampeanas of Argentina: tectonic implications
C. Galindo, C. Casquet, C. Rapela, R.J. Pankhurst, E. Baldo and J. Saavedra 55
Timing and evolution of multiple Paleoproterozoic magmatic arcs in the Tapajós Domain, Amazon Craton: constraints from SHRIMP and TIMS zircon, baddeleyite and titanite U–Pb geochronology
J.O.S. Santos, O.B. Van Breemen, D.I. Groves, L.A. Hartmann, M.E. Almeida, N.J. McNaughton and I.R. Fletcher 73
Paleomagnetic constraints on the Archean geomagnetic field intensity obtained from komatiites of the Barberton and Belingwe greenstone belts, South Africa and Zimbabwe
A. Yoshihara and Y. Hamano 111

Special Issue: Archaean Tectonics, Volume 2

Preface 143

Two contrasting granite–greenstone terranes in the Pilbara Craton, Australia: evidence for vertical *and* horizontal tectonic regimes prior to 2900 Ma
A.H. Hickman 153
Critical tests of vertical vs. horizontal tectonic models for the Archaean East Pilbara Granite–Greenstone Terrane, Pilbara Craton, Western Australia
M.J. Van Kranendonk, W.J. Collins, A. Hickman and M.J. Pawley 173
Interplay between deformation and magmatism during doming of the Archaean Shaw Granitoid Complex, Pilbara Craton, Western Australia
M.J. Pawley, M.J. Van Kranendonk and W.J. Collins 213
Archean crustal evolution in the northern Yilgarn Craton: U–Pb and Hf-isotope evidence from detrital zircons
W.L. Griffin, E.A. Belousova, S.R. Shee, N.J. Pearson and S.Y. O'Reilly 231
Contemporaneous ultramafic and felsic intrusive and extrusive magmatism in the Archaean Boorara Domain, Eastern Goldfields Superterrane, Western Australia, and its implications
J. Trofimovs, B.K. Davis and R.A.F. Cas 283
Neoarchaean mafic volcanic rocks from the southern Bastar greenstone belt, Central India: petrological and tectonic significance
R.K. Srivastava, R.K. Singh and S.P. Verma 305
A MORB-arc basalt–adakite association in the 2.5 Ga Wutai greenstone belt: late Archean magmatism and crustal growth in the North China Craton
Z. Wang, S.A. Wilde, K. Wang and L. Yu 323

doi:10.1016/S0301-9268(04)00097-X

The Archean Murmac Bay Group: evidence for a giant Archean rift in the Rae Province, Canada
R.P. Hartlaub, L.M. Heaman, K.E. Ashton and T. Chacko 345

Erratum

Erratum to "Archaean cratonization and deformation in the northern Superior Province, Canada: an evaluation of plate tectonic versus vertical tectonic models". [Precambrian Res. 127 (2003) 61–87]
J.H. Bedard 373
